PROFFESIONAL SUMMARY

Motivated Electronics & Computer Science student with strong foundations in programming, machine learning, and system design. Experienced in developing real-world projects including ML models, simulations, and system-level applications. Passionate about building scalable solutions and continuously improving technical and problem-solving skills.

EDUCATION

Shah & Anchor Kutchhi Engineering College
B.Tech in Electronics & Computer Science (SGPA : 8.3 / 10)

September 2024 - Present
Mumbai

SKILLS

Programming Languages: Python, Java (OOPs), C / C++

Frontend Technologies: HTML, Tailwind CSS, JavaScript, React

Backend Technologies: Node.js, Firebase, MongoDB, SQL

CS Fundamentals: Operating System, Data Structures (Java)

Tools: Google Developer Console, GitHub, Git bash, VS Code, Vercel, Figma, Canva, MS Office

Soft Skills: English Communication, Presentation, Public Speaking, Leadership

PROJECTS

Technix Timesheet Management System (Client Project | Live)

- Developed a production-ready timesheet system using **React (TypeScript)** and **Supabase**
- Built dashboards for work logging, analytics, and automated **Excel** reporting
- Deployed for real-time usage with structured data processing and client accessibility

Seattle Desi Broadcasting Platform (Live Web Project)

- Built a responsive **React-based web application** with **modern UI/UX practices**
- Optimized performance and ensured smooth experience across devices
- Deployed live for **real-time** accessibility and user interaction

Buildify – Digital Agency Web Platform

- Designed and developed a modern multi-page website using **HTML, CSS, and JavaScript**
- Implemented responsive UI with clean design and structured navigation
- Focused on user experience and high-conversion layout design

Elementum – Premium Agency Landing Page (Frontend Assignment | Live)

- Developed a high-performance **React landing page** with **Tailwind CSS and Framer Motion**
- Implemented pixel-perfect **UI from Figma** with responsive, mobile-first design
- Integrated Docker and Nginx** for production-ready deployment and scalability

Zorlytics – Financial Dashboard (Frontend Assignment | Live)

- Built a **React-based financial dashboard** with **transaction management and data visualization**
- Implemented **CRUD operations**, global state using **Context API**, and local storage persistence
- Designed dynamic insights system for spending analysis and **role-based UI (Admin/Viewer)**

CERTIFICATIONS

- [Data Science with Power BI – 10 Days Internship, ECS Department \(June 2025\)](#)
- [Data Analytics Job Simulation – Deloitte \(June 2025\)](#)
- [IoT Cloud Engineer Virtual Internship – AICTE, EduSkills & AWS \(Jul–Sep 2025\)](#)
- [SAKEC Winter Internship Program – AI Track \(Cisco Skill-A-Thon 2025\)](#)
- [QueryCraft: The Art of Database Engineering – IEI-SAKEC & MITU Skillologies \(Dec 2025\)](#)

ACHIEVEMENTS

- [Runner-Up – Python Skill-Based Lab Micro Project Exhibition \(Feb 2026\)](#)
